Please do not submit a PatentIn “.prj” file. It is a “work-in-progress” file only; you will need to submit a generated Sequence Listing. To generate one, go to “Application Steps” on PatentIn main menu. Click on “Generate Sequence Listing” and then click “Start” button. PatentIn will validate each sequence; hopefully, you will see “Successful completion” in the white box above the “Start” button.

You can then view the generated Sequence Listing by going to “Project” on main menu, and clicking on “View/Print Sequence Listing.” A generated PatentIn Sequence Listing will have an “.ST25” file extension.

For further assistance, please contact Mark Spencer at 571-272-2510.
